

# 3127 INSULATED 2-WAY ATTIC INLET

## Double Pull Installation

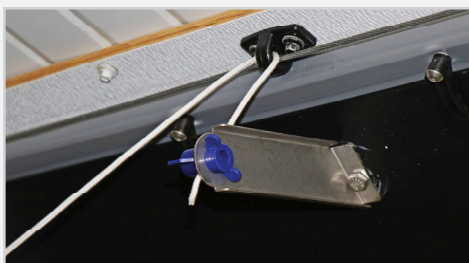

DL3127 DOUBLE PULL KIT: #90305

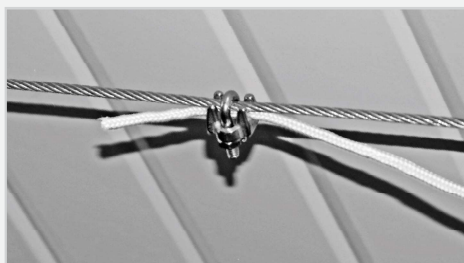

Install closure bracket to blade using hardware supplied.

Install winch block for pull wire and rope to go through.

Use split nut and cord to fasten to closure bracket.

Fasten pull cord to pull wire using cable clamp.

With actuator in closed position, adjust so lids are closed.

Your DL Inlet double pull installation is now complete.
